EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Newly submitted claim 52 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:
 - o Claims 1, and 5-23 are drawn to a substrate processing apparatus.
 - o Claim 52 is drawn to a method of polishing a substrate.
 - o The method of claim 52 does not require a transferring robot and that the polishing tapes be part of the polishing unit as required by claims 1, and 5-23.
 - o Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 52 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
- Claim 52 has been canceled since it is drawn to a non-elected invention, as indicated above.
